Dear Sales Tax Resource Group

Graham and Roderick,

I would like to personally thank you for taking my case. My past experience with audits from the state left me with such a disdain for government that I felt hopeless going into this process until your company came in and helped me organize and prepare.

The process of preparation was not an easy task but the rewards of a speedy and efficient audit made all the weeks of hard work palpable.

Thank you so much for the professional work ethic and the support. My life has changed a great deal since the audit has finished and I am much more happy and fulfilled running my company without the fear of harassment from the SBOE in terms of compliance.

Please feel free to use my company as one of your success stories and feel free to give my name as a referral for your future business contacts.

Happy Holidays and continued success to you folks,

Sincerely,

Allen Yap and the family at E.T.Y Parts Inc.

P.S. - Will I be receiving any copies of the documents given to the auditor? Electronic form would be preferable ☺
